

The PocketDNC software is keyed to the units Owner Information fields.

If you get the following screen Saying TRIAL VERSION NOT FOR RESALE then either the PocketDNC license keyfile has not been installed or somebody has changed the Owner Information. Prior to despatch we will load the keyfile and set the Owner Information fields.

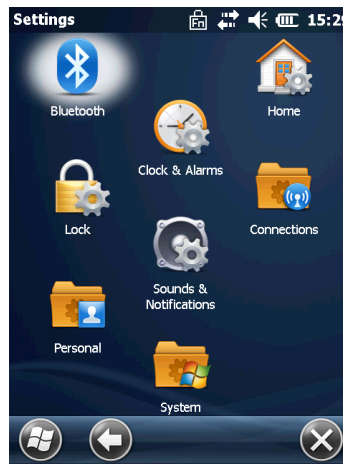

If you find the PocketDNC has reverted to the Trial Version then somebody has altered the Owner Information fields. If this happens call Cambridge Numerical Control on 01480-468639 to get the correct settings and then follow the procedure below to set the user information.

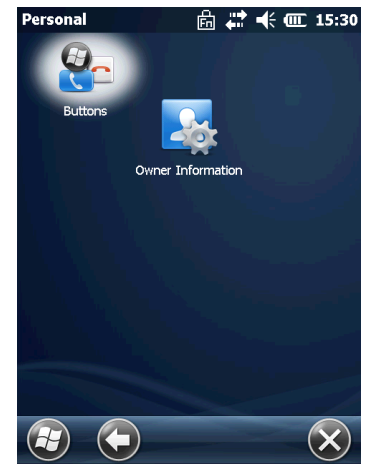

Tap on Home

Tap on Personal

Tap on Owner Information

Type in the Name and Company that the PocketDNC was registered to.
